## Mission Statement

The establishment of Crypto Positive Token LLC (CPTX) is to create a safe and secure online Wellness Center, Access Positive. Here, individuals can seek help from verified licensed experts and/or professionals in a variety of areas. Initial service areas may include but are not limited to: Life Coaching, Nutrition, Physical Health, Mental Health, Anxiety, Depression, Complicated Grief, and other concerns.

Those seeking help can anonymously procure the service via fiat, BUSD, or CPTX tokens.

The purpose of CPTX is to Positively Impact others' lives (both investors in the project and those in need of help) through Cryptocurrency.

## Crypto Positive, LLC (CPTX)

CPTX is a registered Limited Liability Company in the State of Delaware in the U.S. Revenue generated from both the buying and selling of CPTX, as well as revenue from both subscription and product-based services to the wellness center, will contribute to the establishment of Crypto Positive, Inc. (CPO), a 501(c)3 non-profit entity. As the wellness center grows, the various product offerings will ensure the long-term viability of Access Positive. Additionally, holders of CPTX will evenly split 8% of all transactions from the token in the form of BUSD.

## The Token – Total Supply (1,200,000,000,000)

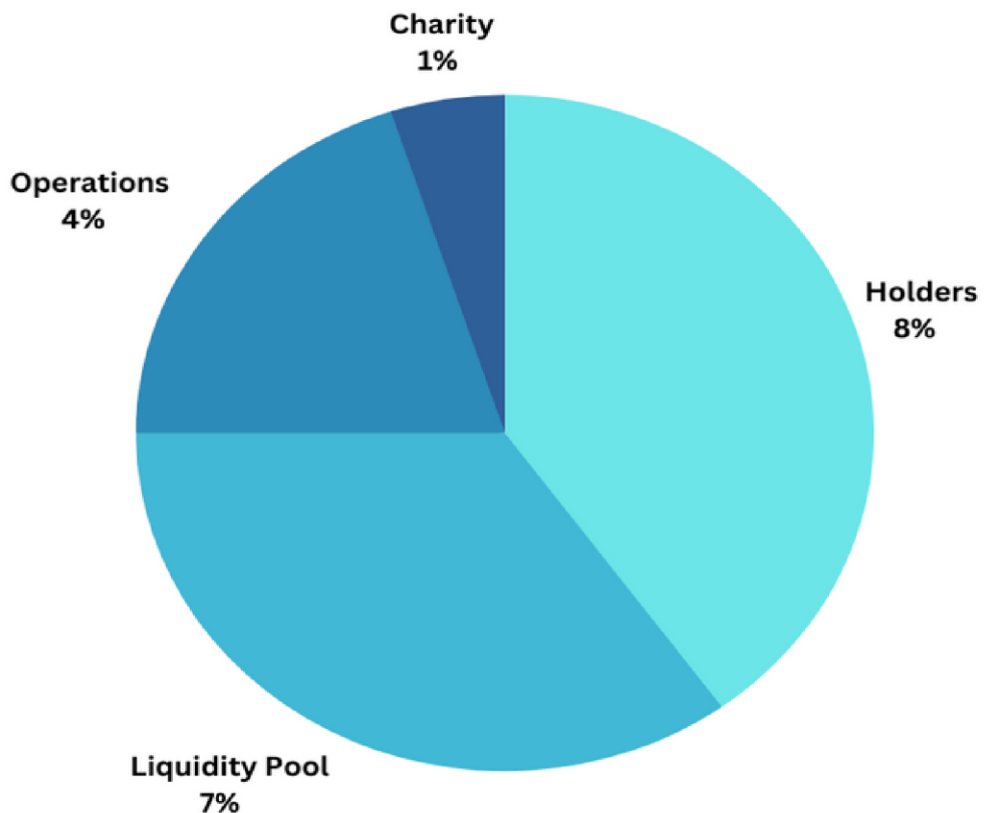

*CPTX will assess a 20% reflection fee of which will go to the following:*

**HOLDERS:** 8% of all transactions will be distributed to all holders in BUSD rewards.

**LIQUIDITY:** 7% of all transactions will be allocated to the liquidity pool to maintain a stable price.

**OPERATIONS:** 4% of all transactions will be allocated to cover all ongoing costs. This includes staffing, research, utility development, marketing, and events.

**CHARITY:** 1% of all transactions will be distributed to the CPTX's charity wallet for contributions to CPO to enable them to provide their charitable contributions to community-selected and predetermined charitable organizations

# Version 2 Relaunch

## **Buy Back and Burn**

At the release of CPTXv2, 360T tokens were burnt. This was an accumulation of unsold tokens from the Private and Pre-sale, along with other reallocation of tokens at the launch.

## **CPTXv2 Deployer Wallet. Private, Presale, and LP**

150T were allocated to PancakeSwap and ensured solid Liquidity for the launch of CPTXv2.

## **Charity**

80T was allocated to the Charity wallet that will accumulate rewards to be donated to CPO, which will then contribute to other charitable organizations worldwide.

## **Operations**

80T was allocated to cover all day-to-day expenses. This will include staffing, research, event planning, utility development, and marketing

## **Staking**

50T was allocated for staking. This is set aside for the purpose of single asset staking and will be offered at varying lock-up periods with increasing APYs through the Financial Services Platform provided by Rematic Finance.

## **Rematic Tokens LLC**

50T was allocated to Rematic Tokens, LLC for the costs of organizational creation and ongoing project support. 500B of which was split evenly amongst CPTXv1 holders at the launch of CPTXv2.

## **CPO Board, P2E, P2G**

80T tokens were removed from active circulation and are no longer accumulating rewards for their respective cause. These tokens will be reallocated by the team at a later date.

## **Wellness Services**

Good health is more than just the absence of illness. It's a state of physical, mental, and emotional well-being. Achieving it requires making smart choices every day. That's where Access Positive comes in. Our subscription-based wellness center will provide for physical, mental, and emotional needs through life skills help, virtual care sessions, online courses and materials, and community collaboration.

In addition, our team of experts will help you achieve your wellness goals, whatever they may be. From nutrition and fitness to stress management and sleep. This fully interactive virtual wellness center will provide an inclusive, safe place to come together, learn from experts, and understand how to help ourselves and those around us on our journeys in life.

## **Staking**

We will be utilizing the Rematic Services Financial Services Platform (FSP) for our staking. The CPTX tokens you will earn will be determined on available APY and based on the length of time staked.

# Roadmap

Crypto Positive will remain aggressive in completing the goals outlined in this section. However, we will ensure a quality product is available before releasing it.

## Core Team

The Crypto Positive core team has not yet been fully established. The current team members are presented below. Crypto Positive may add additional positions as needed.

### **Director of Operations - Rob June**

Rob studied Information Systems but worked in various management roles within the entertainment industry for over 20 years. Rob, the proud father of three, enjoys spending time outdoors and entertaining friends.

CPTX/CPO are both extremely close to Rob, as his youngest son, age 5, has been diagnosed with autism spectrum disorder (ASD) and is considered nonverbal. We are excited to work closely with Rob as he helps Crypto Positive create new and exciting ways to grow and engage our community. His work ethic and passion for this project have already been displayed, and we look forward to the wonderful things he will bring to you and our community.

## **Director of Product Development - Trevor Bower**

Trevor grew up in a family business of 3 bowling centers in Central Pennsylvania and was ripe for learning more about other businesses. Since college, Bower has worked with many startups, small businesses, and larger corporations.

Today, Bower is the owner of several vitamin and supplement retail stores and the brand owner of various fitness brands. Having a positive impact on the community is what drives him the most.
